

*When I remember my mum or I talk about her, when someone tells me stories about her or shows me a photo, her mark inside of me shines strongly and does my heart good.*

## **Sammy's Photo Album**

Sammy's family has never been good at printing photos. They take thousands of pictures that never make it out of a computer or mobile phone! One day, one of Sammy's aunts gave him a beautiful album for him to put photos of his mother. It had tons of pages, and in order to fill them, family and friends gathered and printed loads of pictures. The photos reflected beautiful moments in Sammy's mother's life.

When the photos were placed into the album, Sammy stuck stickers around them and decorated the pages. His family wrote anecdotes and notes to remind them of places and experiences they had shared with his mum. Sammy loves looking at his special photo album.

*How would you feel about putting together a special photo album?*

*What photos do you think could not be missing in your album?*
